

Pritesh Das

Data & Business Analyst | Master's Data Science | **UAE Golden Visa Holder (No Sponsorship Required)**
+971 56 764 8705 (WhatsApp, Botim) | +1 (682) 272-1779 | pritesh.das.101@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

EDUCATION

The University of Texas at Arlington	Arlington, Texas, USA
Master of Science in Data Science GPA: 3.66 / 4 (Expected Graduation: May 2027)	2025 - 2027
Delhi Technological University	New Delhi, India
Bachelor of Technology in Computer Engineering CGPA: 7.44 / 10	2021 - 2025

SKILLS & CREDENTIALS

Technical Skills: Microsoft Office (Excel, Word, PowerPoint), Tableau, Power BI, SQL, Python (Pandas, NumPy)
Certifications: Google Data Analytics, Google Prompting Essentials, Google AI Essentials, McKinsey Forward Program, Microsoft Power BI Data Analyst
Languages Known: Arabic, English, Hindi, Odia
Achievements: Ranked in the **Top 5% (Topper)** among **16,000+** candidates in the **NPTEL** Cloud Computing Course by **IIT Kharagpur** (2023)

WORK EXPERIENCE

TruBridge (Via Extern) - Healthcare Analytics Extern <i>Healthcare Technology and Solutions Company</i>	Mobile, Alabama, USA May 2026 - August 2026
Analysis: Utilized Python to conduct EDA and statistical analysis on public health datasets, engineering features across case counts, demographic matrices, and time-series variables to map critical epidemiological trends. BI & Reporting: Leveraged advanced visualization platforms, such as Power BI, to engineer interactive dashboards and reporting layers to communicate population-level health trends. Strategic Insights: Authored comprehensive performance reports evaluating data scope limitations and public health implications to deliver data-backed recommendations for cross-functional stakeholder action.	
Compass Group - Associate <i>Fortune Global 500 Company</i>	Arlington, Texas, USA January 2026 - May 2026
- Directed the logistical lifecycle and administrative workflows for high-priority corporate and university events on behalf of a Fortune Global 500 brand, ensuring 100% operational readiness through rigorous resource tracking. - Optimized site-specific compliance data and standardized service procedures to eliminate operational bottlenecks, facilitating professional stakeholder engagement in a high-volume enterprise environment.	
Orient IT Services - Business Analyst Intern <i>IT Solutions Provider and Consultancy</i>	Dubai, UAE May 2024 - August 2024
- Collaborated cross-functionally to deliver tailored cloud, cybersecurity, and automation solutions, achieving a projected 12% reduction in client IT costs through Azure optimization and resource monitoring (Turbo360, Veryx Cloudmon). - Developed and refined technical presentations and market analyses, supporting the sales team with compelling value propositions for AI chatbot integrations. - Prospected and engaged 150+ clients and vendors via Apollo.io, LinkedIn, and targeted outreach; conducted 20+ meetings to boost client engagement rates by 15% and drive a 20% increase in lead generation targets.	
Bahwan CyberTek - Market Research Analyst Intern <i>Global IT Solutions and Business Transformation Company</i>	Dubai, UAE December 2022 - January 2023
- Researched digital transformation trends in the MENA utilities sector (smart grids and SCADA systems), analyzing platforms like TIBCO Connected Intelligence and Retina360 to identify operational efficiency and analytics opportunities. - Synthesized industry insights into 6 comprehensive presentations and reports while leveraging structured spreadsheets to document client requirements, directly assisting sales and marketing teams with actionable findings to support project discussions.	

PROJECTS

Tailwind Traders Power BI Analysis (<i>Power BI, Power Query, Data Modeling</i>)	July 2026
Data Engineering: Optimized an end-to-end retail ETL pipeline utilizing a 35% cost allocation margin to process and clean transactional datasets. Advanced BI: Tracked a 62.30% profit margin and a \$222.50 median sales threshold, isolating a 190.93% transaction surge in the UAE (\$680.79); published interactive desktop/mobile dashboards to Power BI Service with automated revenue alerts.	
Bellabeat Data Analysis (<i>SQL, T-SQL, Tableau, Data Cleaning</i>)	June 2026
Analytics (SQL): Built a T-SQL pipeline to clean and segment minute-level tracking data over a 31-day window, engineering a custom sleep hygiene metric to isolate rest patterns. BI (Tableau): Designed a dual-dashboard suite uncovering a 325% active-to-sedentary gap and a Sunday slump (820 vs. 1,207 steps), delivering a roadmap for targeted haptic alerts.	
Cyclistic Bike Share Analysis (<i>SQL, T-SQL, Tableau, ETL</i>)	May 2026
Data Engineering (SQL): Built a T-SQL pipeline to ingest and filter 5.72 million raw records, establishing a clean 4.2 million-row dataset by eliminating missing values and extreme anomalies. EDA & BI (Tableau): Designed 3 interactive dashboards isolating a 1.57 times trip-duration 'Intensity Gap' and Saturday traffic peaks, formulating 5 strategic initiatives for membership conversion.	
Exploratory Data Analysis on Dallas Weather Data (<i>Pandas, NumPy, Matplotlib, Seaborn, Plotly</i>)	September 2025
Engineered 10+ visualizations and performed comprehensive EDA, revealing trends and relationships between temperatures and precipitation.	
Privacy Preservation Using Machine Learning (<i>TensorFlow, Keras, GANs</i>)	May 2025
Developed an image forgery detection model with Generative Adversarial Networks (GAN)-based augmentation; improved detection accuracy by 1.5% on evaluation data.
